

Magic Box contents & margin, grade by grade

What goes into every Magic Box at St. Andrews, St. Michaels, Winmore and TSUS — each item, its quantity and its own shelf price — set against the single price the box is sold at.

166	2,494	5,476	₹24,64,903	₹30,77,100	+₹6,12,197	₹13,16,107	+₹17,60,993
MAGIC BOXES · 6	BOXES ORDERED TO	NEW STUDENTS THIS	CONTENTS VALUE	BOX PRICE	MARGIN · 19.9%	OUR COST · 96% OF	GROSS MARGIN · 57.2%
CAMPUSES	DATE	YEAR				LINES COSTED	

How the contents value is built. Each item in a box is priced from the live catalogue price list (`item_prices`), school-specific price preferred over the global one. Where a size ladder is priced differently per size — shoes and hoodies typically are — the **most common** price on that ladder is used for the total, and the full range is printed beside it.

The box price is the single fixed price a parent pays (`products.base_price`), verified against what was actually charged on placed orders.

Difference = box price – contents value. Positive means the box is sold above the sum of its parts; negative means the parts, bought separately, cost the parent more than the box.

Our cost is the cost price on the Ground Stock (New) keeper page at `audit.inventre.in` — the figure the business states per Keeper SKU (SAS BP Shoes size 8UK = ₹935 on LASHOEBL-8UK). Where a SKU has no stated price we fall back to its purchase rate. Per item we average across its sizes, as with the selling price. A bookkit is not stocked as a kit, so its cost is the sum of the line items inside it, from the audit BOM.

▲ One trap avoided. The older PO-derived valuation infers cost by text-matching purchase lines, and it is wrong often enough to be dangerous — SAS BP's laced shoes resolved to **₹4.24** off a "SAS BP Label Sheet" stationery line, because 5,232 of the 6,158 ERP – Zoho mappings are unconfirmed suggestions that it uses as if exact. The stated keeper price overrides all of that; where it is absent we fall back only to confirmed mappings, direct SKU matches and received rates. 69 of 1807 item lines still have no cost and are left blank.

St. Michaels boxes are not sold on the storefront — the school collects the Magic Box charge through fees, so they carry no catalogue price. The price shown for them is what the school actually collects, read from the "Magic Box" fee head on `inventre.in/fees`; the most recent 2026–27 receipt per student, taken as the usual amount for each grade (Nursery and LKG ₹15,500 · UKG ₹13,500 · Grades 1–5 ₹22,000 · Grades 6–9 ₹25,000 · Grades 11–12 ₹30,000).

St. Michaels bookkits. They are ₹0 in the catalogue because the school is billed separately, which used to make those boxes read as though they held no books. The selling prices from the school's own bookkit list are used here instead — Nursery to Grade 9, both language options (Hindi = 2nd language Hindi with Telugu third, and the reverse). **Grade 11 and 12 are still unpriced:** their kits bundle subjects into "Commerce" and "Humanities" streams, which that list prices subject by subject.

Boxes ordered counts **paid orders only** — failed and pending checkouts and cancelled orders are all left out, so every box counted here is one the parent actually paid for. A box is bought once per student, so the population that can order one is this year's **new admissions** — taken from **MCB, the schools' own admissions system** (`DATEOFADMISSION` on or after 1 September 2025, when the intake year turns — admissions trough in August and climb to an April peak). TSUS Chennai is not on MCB and falls back to Inventre's new-student flag. That is 5,476 students across the six campuses, and 2,494 boxes — 46%. Measuring against the whole roll instead would show 18% and badly understate the product's reach.

Coverage. 154 of 166 priced boxes sell above their contents value. A bookkit counts as one line at the kit price. **0 boxes carry no price at all** — all 28 St. Michaels boxes (billed ₹0 there, and their bookkits are ₹0 too) — they are billed ₹0 there by design. **Every Winmore box is now priced:** seven were repriced to ₹22,000 on 28 August 2026, the last two (Grade 12) on the school's confirmation. The St. Michaels boxes are listed but left out of every total.

Everything in the box		15	CONTENTS VALUE	₹8,965	OUR COST	₹4,599 part only
The school collects, per student			BOX PRICE	₹30,000		
Margin			SP MARGIN	+₹21,035	CP MARGIN	+₹25,401

Contents value = what these items cost a parent buying them one by one. Our cost = what we paid, from the Ground Stock (New) keeper page. **SP margin** = box price – contents value. **CP margin** = box price – our cost · box price collected by the school through fees, the usual amount for this grade across 54 students.

Our cost covers 11 of 12 items. 1 item has no cost price on file, so our cost is understated and CP margin is an upper bound.

1 item(s) carry no price in the catalogue — the contents value above is understated by that amount.

Summary by campus

Every active Magic Box, grade-wise — the detail pages above, gathered up. Same order.

CAMPUS	NEW STUDENTS THIS YEAR	NEW STUDENTS WHO ORDERED	% WHO ORDERED
St. Michaels School — Alwal	661	617	93%
TSUS — Chennai	164	146	89%
St. Andrews School — Keesara	358	306	85%
Winmore Academy — Whitefield	196	163	83%
St. Andrews High School — Suchitra	1,029	792	77%
Winmore Academy — Jakkur	330	194	59%
All six campuses	2,738	2,218	81%

New students = admissions on or after 1 September 2025, from MCB, the schools' own system — the intake year turns then, admissions trough in August and climb to an April peak. TSUS Chennai is not on MCB and uses Inventre's new-student flag. **Returning students do buy boxes too** — at St. Michaels especially — so the percentage counts **new students who ordered**, not boxes. It counts students rather than quantities too: one family buying two boxes is still one student.

St. Andrews High School — Suchitra

New students = new admissions since 1 September 2025, from MCB, split by gender. % who ordered = new students who ordered ÷ new students; 1 returning student(s) at this campus bought one too. A Boys box is measured against the boys admitted and a Girls box against the girls, so the two rows of a grade carry different figures; a unisex box uses the whole grade. The campus total counts every new student once. **A figure over 100% means the box reached students beyond this intake, or the two systems group that grade differently.**

[†] one or more contents carry no cost in Ground Stock — our cost for that box is understated.

New students = new admissions since 1 September 2025, from MCB, split by gender. % who ordered = new students who ordered ÷ new students; 1 returning student(s) at this campus bought one too. A Boys box is measured against the boys admitted and a Girls box against the girls, so the two rows of a grade carry different figures; a unisex box uses the whole grade. The campus total counts every new student once. **A figure over 100% means the box reached students beyond this intake, or the two systems group that grade differently.**
